RESIDENT RESEARCH PROPOSAL

Dear Residents,
The following represents a template for the proposed research plan for the resident research rotation. This proposal is intended to ensure that both the resident and the mentor have a clear understanding of the work proposed. Prior to initiation of the research project, it is expected that the proposal is submitted to the residency director via the coordinator after review by the research mentor. It is critical for the mentor to review this proposal to ensure the feasibility of the work proposed. Please limit text to the allotted space. (Please use Arial 12 pt font)

1) Brief Background of the Research Subject.

2) Hypothesis and Specific Aim(s).

3) Research Plan and Methods.

4) Anticipated Problems with Research Plan and Alternate Solutions.

5) Plan for abstract presentation and/or manuscript submission.
